Profile

MCA student (2027) who turns messy business data into decisions. Collected and structured retail lead data with Python for a freelance client, validated records against PostgreSQL during an enterprise internship, and built dashboards that explain their numbers (QuizApp analytics, tradingb0t's explainable signals). Comfortable working with business owners, presenting findings to non-technical people, and automating the repetitive parts with code and AI.

Technical Skills

Data & Querying: SQL (PostgreSQL, MySQL, SQLite), data collection, cleaning & validation, CSV handling
Analysis & BI: Python (Pandas, NumPy — building), Google Sheets; Excel lookups & pivots (building); Power BI (learning)
Reporting: trend & pattern finding, data visualization, dashboards, report writing, business analysis
Business tools: Zoho CRM, Shopify, Google Workspace, WhatsApp Business
Programming & Tools: Python, JavaScript, TypeScript, C#; Git, GitHub, Docker; LLM APIs for automation

Experience

Founder & Developer — ProntoPy (prontopy.com) **2026 – Present**

- Built and run a free platform teaching Python, DSA and AI/ML: 47 modules, 360+ lessons, 940 problems with a LeetCode-style judge, and Python running offline in the browser (Pyodide).

Software Developer Intern — Prasanna Technologies Pvt. Ltd. **Jun 2026**

- Built dynamic, configuration-driven forms and UI components for enterprise software used across the internal platform.
- Debugged backend issues through log analysis, network tracing and PostgreSQL validation; worked in sprints with Git, Docker and Ubuntu.

Freelance Software Developer — House of Anaika **May 2026**

- Built a headless Shopify storefront with 300+ products, a Python lead-generation tool (zextractor), and moved sales operations onto Zoho CRM.

Featured Projects

zextractor — Lead Generation with Claude API (Python) Code

- CLI that exports jewellery-store names, addresses and phones from Google Maps to CSV, with an optional Claude API step that drafts personalized outreach lines.

tradingb0t — Explainable Stock Research for Indian Markets (React, TS) Code

- Ranked research queue and rule-based signals that show why each was generated; runs on simulated market data with a Postgres-ready data layer.

QuizApp — Online Exams with Admin Analytics (ASP.NET Core MVC, EF Core) Code

- Admins author quizzes, students get instant scores; role-based cookie auth and an analytics dashboard summarizing results.

Education

St Aloysius Deemed to be University — MCA (Master of Computer Applications) *2025 – 2027 (Expected)*
Government First Grade College — B.Sc. (Computer Science & Mathematics), CGPA: 7.7 *2022 – 2025*

Certifications & Workshops

Intro to AI — IBM SkillsBuild · **Programming in Python** — Infosys Springboard · **Cybersecurity** — NPTEL

Leadership & Community

- **Hackathons:** CODE MEET 2026, 1st in Round 1 (MindMirror) · GATEWAYS 2026 (150+ teams), Round 2 (Paroh)
- **Co-Founder**, DAT Community · **Host**, Eleven Bytes (25+ colleges) · **Head of IT Team**, GFGC Malur
